I am a seasoned software developer with five years of diverse experience spanning freelance and corporate environments, I bring a dynamic blend of creativity, technical expertise, and a relentless passion for technology to the table. My journey has honed my abilities to adapt swiftly to evolving project scopes, collaborate seamlessly with teams, and deliver innovative solutions that exceed expectations. Whether crafting custom applications as a freelance developer or contributing to large-scale projects within corporate settings, I've cultivated a deep-seated commitment to continuous learning and skill enhancement. Eager to embrace new challenges and leverage emerging technologies, I am driven by a fervent curiosity and an unwavering dedication to pushing the boundaries of what's possible in software development.

## Experience

### Platform Support Engineer, *Entrata*

2023 - 2024

- Part of a team that was in charge of diagnosing and resolving technical issues promptly to ensure uninterrupted platform operations and exceptional user experience.
- Experienced in delivering top-tier customer support, addressing inquiries, and effectively communicating technical information to diverse platform users, managers, and fellow developers.
- Working across departments, driving incident management processes, and spearheading initiatives to enhance platform functionality and operational excellence.
- Monitoring platform performance, conducting proactive maintenance, and implementing optimizations to enhance efficiency and reliability.

### Senior Software Developer, *VoirMe*

2021 - 2023

- Lead in the design, development, and implementation of the platform that would help students connect, collaborate on projects, and find job opportunities.
- Supervise the assessment of all graphic materials in order to ensure the quality and accuracy of the design while converting them to NFTs
- Oversee the efficient use of production project budgets.

### Freelance Software Developer, *Upwork*

2020 - 2022

- Developed numerous websites and web apps including (logos, infographics and presentations).
- Managed up to 3 projects or tasks at a given time with tight deadlines.
- I recommended and consulted with clients on the most appropriate infrastructure designs and technologies.
- Created 4+ design presentations and proposals a month for clients and account managers.
